

WWW.eCodes.biz is moving but will continue to provide you with the same great products that you expect.

One of the major benefits of our new website www.iccsafe.org is the advantage of Single Sign On. This means having only one set of credentials to access all members-only and eCodes Premium areas of the ICC site.

With the new site, everyone will log in using an email address and a password. To make this transition as easy as possible, we are providing the following instructions to assist you with syncing your login credentials:

1. Login to the www.iccsafe.org site (create a new website account if necessary).
2. Click on the My ICC link.

3. On the left-hand side of the My ICC page, click on the My eCodes link.
  - a. You will see a message stating: “Currently we do not have a record of any eCodes Premium Subscription products associated with your account. However, if you have an existing eCodes Premium user ID and password, you can enter it below to have it permanently associated with your iccsafe.org login. This will provide a seamless single sign-on to your eCodes any time you visit this site.”

4. To associate your eCodes Premium account with your iccsafe.org account, please enter your eCodes User ID and Password in the fields provided and click on the submit button.

5. Your credentials will be checked to verify that they are correct. Once your credentials are verified, you will see a message with a link to your eCodes Premium content.

6. After you have associated your eCodes account to your iccsafe.org account the first time, on all subsequent visits to the www.iccsafe.org website you will see that you now have a link that says “eCodes Premium Returning User” under the login box on the home page – this provides you with the single sign-on access to your eCodes Premium content.
